

WE LOVE OUR TOWN, PLEASE

SLOW DOWN

All the Lou's down in Louisville loved their town a lot. But when it came to driving carefully, many people were not. So little tiny Lou from Louisville had a plea – for all of his neighbors to please watch their speed.

Traffic safety (i.e. distracted driving, speeding, aggressive driving) is the most common complaint the City of Louisville receives from neighborhoods and it is because unsafe driving has a direct impact on the quality of life for our residents.

WHAT IS THE CITY DOING?

The City is currently working on short and long-term solutions to address traffic safety. We continue to explore short-term speed management tools and auto, pedestrian and bicycle improvements like enhanced crosswalks and signage that will immediately improve traffic safety. Long-term improvements will also be considered as the City develops recommendations for the Transportation Master Plan, which evaluated traffic safety and areas of concern.

The City also relies on enforcement to address this issue. The Police Department continues to provide directed traffic enforcement throughout the community to encourage slowing down, use temporary sign boards to relay important safety messages to drivers and equip its vehicles with moving speed measuring devices.

WHAT CAN YOU DO?

As a driver, you can drive slowly and courteously, act like a guest in all neighborhoods and make our streets safer and friendlier by driving the speed limit. The Centers for Disease Control and Prevention estimates that nine people are killed every day in the United States due to distracted driving.

You can limit the risks of distracted driving by using the “Do Not Disturb” setting on your phone or downloading a mobile application that restricts use of your phone while driving. As a pedestrian or bicyclist, you can follow signage and other traffic safety tools. Cross at designated crosswalks and stop at signs and traffic signals and follow their cues.

LOOKING FOR ADDITIONAL INFORMATION?

To report an emergency, please call 911.

To report an unsafe driver or speak with an officer, please call the Louisville Police Department at 303.441.4444. For other resources, visit the City's website at www.LouisvilleCO.gov/TrafficSafety and sign up for enotifications by visiting www.LouisvilleCO.gov/Enotification and selecting Traffic Safety Updates under news.

Have You Signed Up for Emergency Notifications?

- **What is it?** The Boulder County Sheriff and Louisville Police Department utilize an emergency notification system that allows residents of the County and City of Louisville to be notified of emergency situations. Notifications can be received in a variety of ways, including cell, home and work phones and by text message and/or email. Employees who work in Louisville can also use the system by entering their work address.

- **How do I sign up?** You can sign up for alerts and manage your profile at the Everbridge Emergency Alert program site at <https://member.everbridge.net/index/453003085612231#/login>. If you need alerts about activity at more than one location within Boulder County, fill out a separate registration form for each address.

- **When will it be used?** The system will be used to notify residents about imminent threats to health and safety such as the need to evacuate due to a wildfire, or take other appropriate actions in the event of a flash flood or other critical police activity. You will see the alert as coming from 911alert@bouldercounty.org.

- **Will I still get emergency notifications if I don't sign up?** If you don't sign up, residents will still receive emergency notification on your traditional landline home phone, but nowhere else. These notifications can take longer depending on call volume.
- **What if my phone number or email address changes?** If your cell phone, work phone or email address changes, you are responsible for going to the Everbridge Emergency Alert program site and updating the information.

- **Will my contact information be shared with others?** No, the information you provide will be used for emergency purposes only. It will not be given to any other vendor or organization used for any other purpose.

- **What else should I know?** For more information on the emergency notification system, please visit the County's website at <https://www.bouldercounty.org/safety/emergency/emergency-mass-notification-system> or call the County at 303.441.3600.
